

GCSTMR 2017

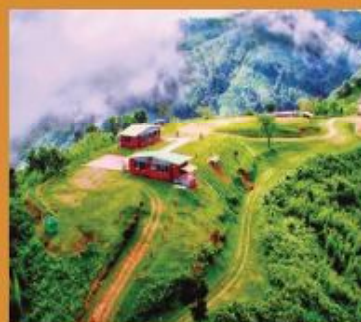

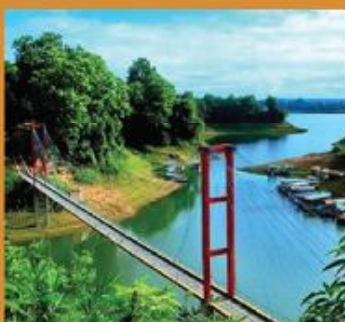

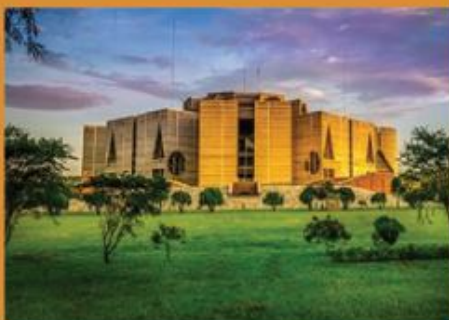

1st INTERNATIONAL CONGRESS

by
GLOBAL CIRCLE FOR SCIENTIFIC,
TECHNOLOGICAL AND MANAGEMENT
RESEARCH (GCSTMR)

4-5 FEBRUARY 2017
DHAKA, BANGLADESH

CONFERENCE SERIES:

- 1st International Conference on Engineering Research and Practice
- 1st International Conference on Management Research and Practice
- 1st International Conference on Scientific Research and Practice

CONFERENCE INFORMATION

GCSTMR is a global professional organization of academicians, researchers and professionals with a vision to enhance contemporary practice in scientific, technological, business and management research through knowledge sharing in the interconnected world.

GCSTMR relentlessly works toward new opportunities for academicians, researchers and industry leaders to foster a vibrant scholar community with high ethical standard in research and professional activities. GCSTMR endeavors to create the platform for young researchers to exchange ideas and share information with experts in respective fields. GCSTMR encourages and facilitates transnational collaborations among its members in research, teaching and professional activities. Multidisciplinary international conference series run by GCSTMR open vast opportunities for researchers to interact on the global platform and take advantage of knowledge sharing in the digital arena. GCSTMR is a venture of Science, Technology and Management Crest Australia (STAMCA), a registered company in Australia (Australian Business Number: 61612085444).

The 1st International GCSTMR Congress is jointly organized by GCSTMR, Bangladesh Open University (BOU), the Business Faculty of Dhaka University (DU), Islamic University of Technology (IUT), and Dhaka University of Engineering and Technology (DUET). The conference series are being hosted by Bangladesh Open University (BOU) and Dhaka University.

The conference will be held at the DU Business Faculty Conference Hall and seminar halls, which are equipped with state-of-the-art technology highly suitable for holding plenary and technical sessions. The venue is about 16 km away from the Dhaka Shahjalal International Airport, and many international standard well-secured hotels, motels, guest houses and resorts are situated around the venue. This part of Dhaka is relatively quiet and peaceful with less traffic congestion.

Bangladesh, an emerging economic power in Asia, is also popular for its two main tourist attractions: Cox's Bazar, a contender for the title of the longest unbroken sandy sea beach in the world and the Sundarbans, the largest mangrove forest of the world with the Royal Bengal Tiger and the Spotted Deer. For more information, visit the official website of Bangladesh tourism: <<http://tourismboard.gov.bd>> and <<http://visitbangladesh.gov.bd>>

Authors are invited to submit papers on a wide range of topics on the current best practices in research in Engineering, Information Technology, Business, Management and the General Science disciplines as well as contemporary practices in the wake of recent research and growing demands due to the fast paced advances in technology applications. Please visit the official website of GCSTMR (<http://www.gcstmr.com.au>) for further details including conference tracks, technical committees and abstract & paper submission guidelines.
